

Smarter eDiscovery for
high performing law firms

Big law power, Small firm overhead

Gain a competitive edge by resolving matters quicker and more effectively, while controlling eDiscovery costs for you and your clients.

Dramatic increase in data

The amount of digital data is exploding. Information is routinely stored and shared across multiple cloud platforms, making it harder to find responsive ESI.

Challenges serving clients efficiently

With just 23% of organizations having visibility over all their users' cloud data, it is becoming increasingly difficult to consult with your clients for their Meet & Confers.

Price pressure from clients

With rising inflation and economic uncertainty, corporate legal departments are bringing more in-house, and pushing for alternative or fixed fee arrangements.

"IPRO gives the best value for performance. Once we saw all the capabilities that come with the tool and how user-friendly it is, it was easy to choose OPEN DISCOVERY."

- WILSON TURNER KOSMO LLP

Smart Enterprise eDiscovery Software

Process at an outstanding speed. Stream directly to review. Turn complex data into insights, earlier. Collaborate to craft a winning case strategy.

In-place, live early data assessment

Get a secure, direct, and centralized view into your clients' data. Our trusted technology lets you quickly connect to their data sources, as soon as a legal dispute is foreseen. Understand the relevant case matter in hours instead of weeks. Perform Early Data Assessment before final collection to narrow the scope of your search then use this insight to develop a strategic plan of response much faster than your client ever expected.

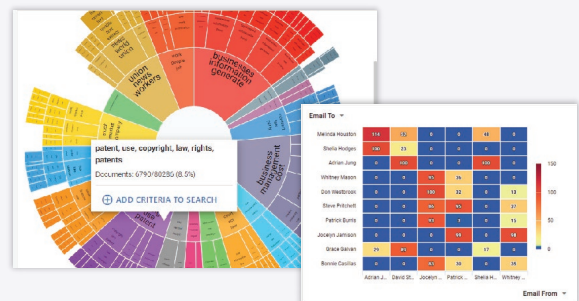

Process directly into review

Leverage virtually limitless processing power. Start reviewing within minutes. Extract more metadata than with any other tool, at the industry's fastest pace. Skip ingestion starts and stops while producing the highest quality of documents.

Reduce the review burden with advanced analytics

Build complex visual searches with advanced analytics in just a few clicks. Interact with charts and graphics to gain insight into key concepts, related data, and communication patterns. Efficiently cull irrelevant documents before sending them for time-consuming review.

Intuitive early case assessment & document review

Our intuitive document review interface lets your team focus on the work at hand, not the tool. Decrease reviewer confusion with ease through dynamic batch management. Search documents and transcripts with powerful filtering capabilities.

IPRO is reinventing the way organizations interact with their data.

We combine best-in-class governance and eDiscovery software to bring insight far earlier in the eDiscovery process, enabling teams inside and outside your organization to collaborate transparently at any stage, before data is even collected.
